PRESS RELEASE

For Immediate Release

OBC ONE achieves industry first with IATA certification for Dangerous Goods specifically for OBC brokers

Larnaca, Cyprus - May 2025 - OBC ONE, the trusted name in time-critical and on board courier (OBC) logistics, has just raised the bar in the industry: the entire operations team has successfully completed a **dedicated OBC Dangerous Goods training certified by IATA** - making OBC ONE the **first OBC broker** to receive such targeted instruction. To ensure maximum relevance, OBC ONE actively co-developed the training with industry expert ATP Training - tailoring it from the ground up for real-world courier operations.

While IATA certification is standard in the wider air cargo industry, the OBC sector has often lacked specific training tailored to its unique demands. That changes now.

“Our team is now fully trained and certified to handle Dangerous Goods in the OBC context - a first in our field,” **says Jonathan Kolb, Founder of OBC ONE.** “In emergency logistics, we need to be able to make decisions within seconds. And knowing exactly what can and what can’t fly is a massive advantage for our clients.”

Delivered by ATP Training, a certified IATA Dangerous Goods training provider, and customized for the time-critical courier business, the course empowers the OBC ONE team to:

- Quickly assess and accept or reject DG shipments within OBC scope
- Ensure full compliance to ICAO/IATA regulations while maintaining speed
- Communicate confidently with airlines and partners

The feedback from clients has been clear: they trust OBC ONE not just because of speed - but because of deep knowledge, thousands of perfectly executed OBC shipments and maximum reliability.

“In situations like AOG or urgent medical shipments, guessing is not an option. With this training, our team makes informed decisions in real time - and that’s what keeps supply chains running,” Kolb adds.

This step reinforces OBC ONE’s role as a forward-thinking leader in the fast-moving OBC sector – and a reliable partner for clients with no time to waste.

About OBC ONE

OBC ONE is a global on board courier / hand carry specialist headquartered in Cyprus, with a growing network of 1500+ trusted couriers worldwide. From AOG to pharma to urgent prototypes, OBC ONE ensures mission-critical shipments arrive on time, every time.

What is OBC / hand carry?

An OBC or “on board courier” hand carries the most time-critical shipment on the next commercial flight out. This way extremely urgent parts or goods can be picked up and delivered door to door including import/export customs in record time.
